

INBRED MAIZE LINE PHBBP

Abstract

A novel inbred maize line designated PHBBP and seed, plants and plant parts
5 thereof. Methods for producing a maize plant that comprise crossing inbred
maize line PHBBP with another maize plant. Methods for producing a maize
plant containing in its genetic material one or more traits introgressed into
PHBBP through backcross conversion and/or transformation, and to the maize
seed, plant and plant part produced thereby. Hybrid maize seed, plant or plant
10 part produced by crossing the inbred line PHBBP or an introgressed trait
conversion of PHBBP with another maize line. Inbred maize lines derived from
inbred maize line PHBBP, methods for producing other inbred maize lines
derived from inbred maize line PHBBP and the inbred maize lines and their parts
derived by the use of those methods.
